<b>Launch Date</b>	9 November 2007
<b>Investment Strategy</b>	The Fund seeks to maximise total returns by providing investors with capital appreciation and income (if any), while reducing risk through diversified investments mainly in equities and money market instruments.
<b>Asset Allocation</b>	Malaysian equities & equity-related securities: Minimum 70% and up to 98% of the Fund's NAV Global equities & equity-related securities: Up to 30% of the Fund's NAV Liquid assets: Minimum 2% of the Fund's NAV
<b>Performance Benchmark</b>	FTSE Bursa Malaysia 100 Index

##### 4. Who am I investing in?

<b>Fund Manager / Manager</b>	Kenanga Investors Berhad (“Manager”)
<b>Trustee</b>	CIMB Commerce Trustee Berhad (“Trustee”)

##### 5. What are the possible outcomes of my investment

Unit prices for this Fund may go down as well as up. The Fund is exposed to a variety of risks by nature of the investment strategy of the Fund. As such, the Fund does not provide guarantee on the investment amount nor does it guarantee a fixed rate of return.

#### KEY RISKS

##### 6. What are the key risks associated with this product?

Investors are advised to read the Fund's prospectus and understand the risks involved and if necessary, consult a professional adviser for a better understanding of the risks before investing.

##### General Risk related to the Fund

<b>Market Risk</b>	Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the fund's net asset value.
<b>Manager's Risk</b>	This risk refers to the day-to-day management of the fund by the manager which will impact the performance of the fund. For example, investment decisions undertaken by the manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the fund.

<b>Liquidity Risk</b>	Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If a fund holds assets that are illiquid, or are difficult to dispose of, the value of the fund will be negatively affected when it has to sell such assets at unfavourable prices.
<b>Inflation Risk</b>	This is the risk that investors' investment in the fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.
<b>Non-Compliance Risk</b>	This refers to the current and prospective risk to the unit trust fund and the investors' interest arising from non-compliance of regulations imposed by the Capital Markets and Services Act 2007 and the guidelines, deeds, prospectuses and/or manager's internal policies and procedures by the manager. Risk of non-compliance can lead to diminished reputation, reduced franchise value, limited business opportunities and reduced expansion potential for the company. Accordingly, non-compliance may affect the investor's investments by causing a fall in the value of the unit trust fund.
<b>Loan Financing Risk</b>	This risk occurs when investors take a loan/financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the loan repayments. In the event units are used as collateral, an investor may be required to top-up the investors' existing instalment if the prices of units fall below a certain level due to market conditions. Failing which, the units may be sold at a lower net asset value per unit as compared to the net asset value per unit at the point of purchase towards settling the loan.

#### Specific Risks related to the Fund

<b>Equity and Equity-related Securities Risk</b>	As the investments of the Fund will be in equities/ Shariah-compliant equities and equity-related securities/ Shariah-compliant equity-related securities, other than warrants and convertible loan stocks, the Fund will be affected by equity risk. Generally, equity risk may arise in the following forms, i.e., equity risks related to external factors and equity risks related to company-specific factors. All of these related equity risks can adversely affect the prices of equities, which would negatively impact the performance of the Fund. Equity risks related to external factors include economic, political or general market factors which impact equities generally. For example, adverse political developments may cause the economy of the country in which the Fund invests in to become unstable, which in turn affects the profitability of a company that operates in that country due to weakening of the economy. Equity risks related to company-specific factors include how the companies in which the Fund invests are managed; the performance of any given company depends on the quality of its management. A company that has a competent management with the necessary experience and skill sets will contribute to the effectiveness of the operations of the company as indicated by such metrics as revenue growth and profitability. Company specific factors also include how the company is doing relative to its competitors or other companies in its industry or related industries. These types of equity risks can work individually or in combination to negatively affect the value of equities/ Shariah-compliant equities and equity-related securities/ shariah-compliant equity-related securities held by the Fund.
<b>Currency Risk</b>	The Fund may be exposed to currency fluctuation risk as well as changes in foreign exchange regulations as the Fund may be invested in foreign currency or assets denominated in a foreign currency. There is a risk of potential price fluctuations in the value of foreign assets because of changing current exchange rates. If this occurs there is a possibility that the Unit price of the Fund may be adversely affected. Any gains or losses arising from the movement of the foreign currencies may therefore affect the value of investment as expressed in the base currency in addition to the capital gains or losses of such investment; which in turn will impact the investment value of the Fund. The Manager may manage this risk by hedging the foreign currency exposure; in this case, investors will not be able to enjoy any upside from the foreign currency appreciation.
<b>Country Risk</b>	Investment of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may be adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the net asset value of the Fund or prices of units to fall.

Please be advised that if a Unit Holder invests in Units through an institutional unit trust advisers which adopts the nominee system of ownership, the unit holder would not be considered to be a Unit Holder under the deed and consequently not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holder's meeting and to vote thereat and the right to have the Unit Holder's particulars appearing in the register of Unit Holders of the Fund).

### FEES AND CHARGES

#### 7. What are the fees and charges involved?

The table below describes the charges that you may DIRECTLY incur when you buy or redeem Units of the Fund.

<b>Sales Charge</b>	Up to 5.50% of the Fund's NAV per Unit
<b>Redemption Charge</b>	Nil
<b>Transfer Fee</b>	Nil
<b>Switching Fee</b>	Nil
<b>Other Charges</b>	There are no other charges (except charges levied by banks on remittance of money) payable directly by investors when purchasing or redeeming units of the Fund.

*Note: The Manager may waive or reduce the sales charge imposed. Investors may also negotiate for a lower sales charge with their preferred distributor, subject to the respective channels' qualifying criterion.*

The table describes the fees that you may INDIRECTLY incur when you invest in Units of the Fund.

<b>Annual Management Fee</b>	1.80% of the NAV of the Fund per annum.
<b>Annual Trustee Fee</b>	0.05% of the NAV of the Fund per annum.

*All fees and charges payable to the Manager and the Trustee are subject to the goods and services tax/ sales and services tax/ other taxes of similar nature as may be imposed by the government or other authorities from time to time.*

**YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT.**

## VALUATIONS AND EXITING FROM INVESTMENTS

### 8. How often are valuations available?

Valuations are valued daily and you may refer to [www.kenangainvestors.com.my](http://www.kenangainvestors.com.my) for the unit price.

### 9. How do I exit from this investment and what are the risks and costs involved

Unit Holders may redeem their investments in the Fund on any Business Day by completing the prescribed redemption request form or such other manner as the Manager may accept and returning it to the Manager on any Business Day; the redemption request form is available at the office of the Manager.

Units redeemed during dealing hours (i.e. from 8.30 a.m. to 4.00 p.m.) on any Business Day will be redeemed at the NAV per Unit calculated as at the next valuation point after the request is received (i.e. "forward pricing").

Any redemption request received after the dealing hours on any Business Day will be taken as a redemption request made on the next Business Day.

The minimum redemption amount is 500 Units for each transaction or such other lower amount as the Manager in its sole discretion allows.

However, if the redemption request leaves a Unit Holder with less than 500 Units (minimum holdings), the Manager reserves the right to liquidate the balance of the Units held in the Unit Holder's account.

Redemption proceeds will be paid within ten (10) days from the date the Manager receives a duly completed redemption request form.

#### **Cooling-Off Right**

A cooling-off right is only given to an individual investor who is investing for the first time in any unit trust funds managed by the Manager but shall not include the Manager's staff and a person registered with a body approved by the Securities Commission Malaysia ("SC") to deal in unit trusts.

The cooling-off period shall be within six (6) Business Days from the date the Manager receives the duly completed form. "Cooling-Off Period" or Cooling-Off Right" is not applicable to EPF Member Investment Scheme.

*Note: Please read and understand the Fund's prospectus and its supplemental prospectus (if any) before investing in the Fund.*

## FUND PERFORMANCE

### **Average Total Returns**

The basis of calculating the average total returns is by calculating the growth of the NAV of the Fund at the start point against the NAV of the Fund at the end point of the calculation period of 1 year, 3 years, 5 years and 10 years. We take into account and factor in all the distributions and unit splits into the NAV of the Fund for the purposes of the calculations.

	<b>1 year 31/01/19 - 31/01/20 (%) Return</b>	<b>3 years 31/01/17 - 31/01/20 (%) Return</b>	<b>5 years 31/01/15 - 31/01/20 (%) Return</b>	<b>10 years 31/01/10 - 31/01/20 (%) Return</b>
<b>KMIF</b>	13.18	5.33	7.58	10.05
<b>Benchmark</b>	-7.29	-2.15	-2.13	2.98

Source: Lipper IM

**Annual Total Return**

	Dec 2010 (%)	Dec 2011 (%)	Dec 2012 (%)	Period 31/12/12-31/01/14 (%)	Jan 2015 (%)	Jan 2016 (%)	Jan 2017 (%)	Jan 2018 (%)	Jan 2019 (%)	Jan 2020 (%)
<b>KMIF</b>	10.66	3.71	3.60	14.13	8.26	7.46	10.66	21.91	-15.95	13.18
<b>Benchmark</b>	21.76	1.94	9.60	8.11	-1.62	-5.83	1.43	14.18	-11.62	-7.29

Source: Lipper IM

**1-Year Fund Performance Review**

As at financial year ended 31 January 2020, the Fund appreciated 13.18%, outperforming the 7.29% decrease in the FBM100. The outperformance was mainly due to better stock selection.

**Performance Chart Since Inception**

Source: Novagni Analytics and Advisory

**Portfolio Turnover Ratio (PTR) and Management Expense Ratio (MER)**

	Financial Year Ended 31 January		
	2020	2019	2018
<b>PTR (times)</b>	1.35	1.72	1.59
<b>MER (%)</b>	1.93	1.96	2.04

**Explanation of significant change in the PTR**

PTR is lower against last financial year mainly due to decrease in trading activities.

**Explanation of significant change in the MER**

The MER is lower against previous financial years mainly due to the higher average fund size during the financial year under review.

**Distribution**

Year Ended 31 January 2020	Year Ended 31 January 2019	Year Ended 31 January 2018
No distribution has been made during the period.	No distribution has been made during the period.	No distribution has been made during the period.

**PAST PERFORMANCE OF THE FUND IS NOT AN INDICATION OF ITS FUTURE PERFORMANCE.**

Damansara Heights  
50490 Kuala Lumpur

**APPENDIX : GLOSSARY**

<b>Business Day</b>	Means a day on which the Bursa Malaysia is open for trading.
<b>Management Expense Ratio (MER)</b>	$\frac{\text{Total annual expenses incurred by the Fund}}{\text{Average NAV of the Fund calculated on daily basis}} \times 100$ <p>This ratio will inform you of the total expenses incurred by the Fund during the year as compared to its average NAV. Total expenses include management fee, trustee fee and expenses incurred for fund administrative services. A low MER indicates the effectiveness of the Manager in managing the expenses of the Fund.</p>
<b>medium to long-term</b>	Refers to a period of three (3) to five (5) years.
<b>Net Asset Value (NAV)</b>	Means the total value of the Fund's assets minus its liabilities at the valuation point. In computing the annual management fee and annual trustee fee, the NAV of the Fund should include the management fee and the trustee fee for the relevant day.
<b>NAV per Unit</b>	Means the NAV of the Fund divided by its total number of units in circulation.
<b>Portfolio Turnover Ratio (PTR)</b>	<p>Refers to the measure of trading activity or how frequently assets within a fund are bought and sold by the Manager. A fund with a 0.5 times portfolio turnover ratio, for example, replaces half of its holdings during the period under review. A fund with a high portfolio turnover rate will typically incur more transaction costs than one with a low portfolio turnover rate.</p> <p>The computation of PTR is as follows :</p> $\text{PTR} = \frac{(\text{Total acquisitions of the Fund} + \text{Total disposals of the Fund}) / 2}{\text{Average NAV of the Fund calculated on a daily basis}}$
<b>Unit Holder(s)/ Investor(s)</b>	Means the person for the time being registered under the provisions of the deed as the holder of units and includes the Manager and joint-holder.
